## Message from the Managing Trustee

### Dear Friends and Supporters,

In the journey of life, I've encountered numerous challenges, yet I've steadfastly chosen not to dwell on past missteps but to focus on the path ahead. I've always sought ways to stay motivated and pursue my goals, even in the face of setbacks. Taking ownership of my actions and navigating through adversity with resilience has been my ethos.

Rather than engaging in the blame game, I believe in seeing the best in others and empowering them to unlock their potential. My approach is rooted in finding solutions, recognizing that things often don't unfold as expected. Embracing diverse perspectives and listening to the advice of others has been instrumental in broadening my understanding and finding holistic solutions.

Adaptability is paramount for progress, knowing when to pivot and when to let go fosters growth and acceptance. Our values serve as guiding beacons, shaping our character and driving us towards our goals. Through my organization, I've dedicated myself to serving the marginalized, striving to bring about positive change in their lives.

Together, let's continue to embrace challenges, cultivate resilience, and work towards a brighter future for all.

Thank you for your unwavering support.

Warm regards,

Mukesh Kumar Shah  
Managing Trustee, Socio Economic Research Institute (SERI)

## About SERI

The Socio Economic Research Institute (SERI) is a dedicated organization committed to driving sustainable socio-economic development through innovative and community-driven initiatives. Our mission focuses on enhancing the quality of life for underprivileged and marginalized communities by addressing critical areas such as education, health, water and sanitation, sports, and cultural integration.

**Our Vision:** To build a society where every individual has the opportunity to thrive and contribute to the nation's growth.

**Our Mission:** To implement impactful projects that improve the socio-economic conditions of vulnerable communities through collaboration, innovation, and sustainable practices.

# Major Activities and Events

## 1. Sansad Khel Mahakumbh 2024

Celebrating Unity, Sportsmanship, and Cultural Diversity

The Sansad Khel Mahakumbh 2024 was a monumental event celebrating unity, sportsmanship, and cultural diversity. It brought together thousands of participants, fostering a spirit of camaraderie and competitive excellence.

### **Inauguration Ceremony:**

**Date:** 20th February 2024

**Location:** Permit Field, Balasore, Odisha

**Chief Guest:** Professor Damyanti Beshra, Padmashri Awardee

**Virtual Inauguration:** Hon'ble Union Minister of Sports, Shri Anurag Thakur

**President of the Inaugural Function:** Hon'ble Member of Parliament, Balasore, Shri Pratap Chandra Sarangi

The inauguration ceremony was a grand affair, featuring a vibrant cultural program by the students of Balasore. The event was a true reflection of the local heritage and set the stage for the diverse sporting events that followed.

## **Games and Participation:**

- **Sports Included:** Cricket, Football, Volleyball, Kabaddi, Kho Kho, Tug of War, Athletics, Mini Marathon
- **Number of Participants:** Approximately 37,000 players across four categories (Men, Women, Senior, Junior)
- **Participating Blocks:** 11 Blocks including OUPDA, SADR, REMUNA, BASTA, BALIPAL, JALESHAR, BHOGRI, NILGIRI, BADSHAHI, BETNATY, BAHANAGAD

The games were organized in two phases: the first at the block level, followed by the district level. Each participant received sports equipment, kits, T-shirts, and refreshments, ensuring a well-rounded and enjoyable experience.

## **Closing Ceremony:**

**Date:** 1st March 2024

**Chief Guest:** Ilena Citaristi, Padma Shri Awardee

**Virtual Attendance:** Hon'ble Law Minister, Shri Arjun Ram Meghwal

**Presence:** Pratap Chandra Sarangi, MP from Balasore

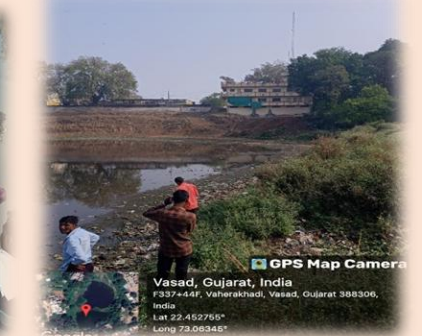

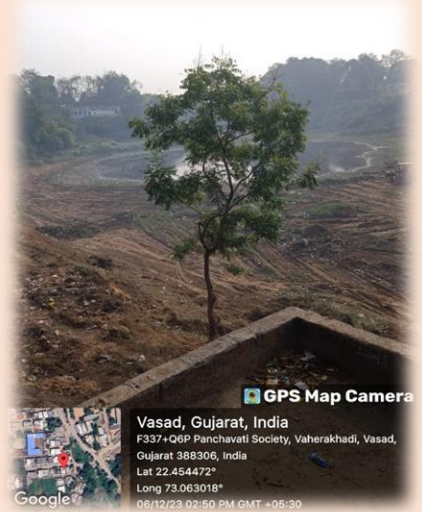

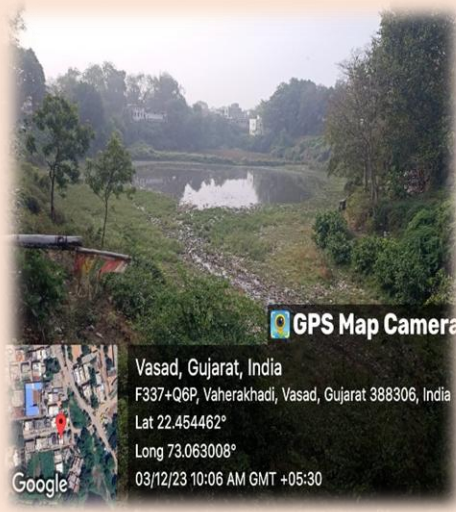

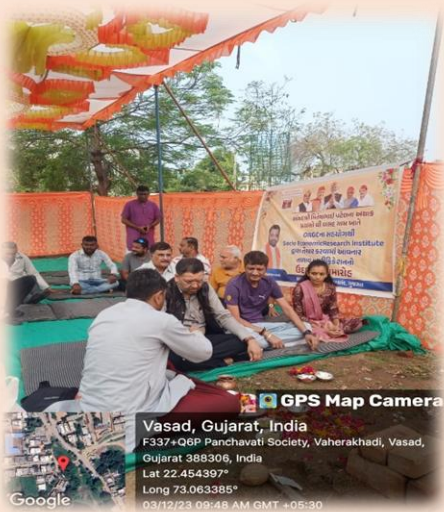

The closing ceremony was a grand celebration of the participants' achievements, with trophies and prizes awarded to the winners. The event highlighted the importance of sports in fostering resilience, discipline, and solidarity among the youth.

## **2. Village Pond Rejuvenation in Vasad, Gujarat**

**Date: August 19, 2023**

In line with the Mission Amrit Sarovar launched by Hon'ble Prime Minister Shri Narendra Modi, SERI undertook a project to rejuvenate the village pond in Vasad, Anand district, Gujarat. This initiative aimed to improve water quality for agriculture and livestock, thus enhancing food security and providing a recreational space for the community.

## Key Activities:

- **Landscaping and Infrastructure:** Leveling and concreting the pond area, creation of stone pathways, installation of light poles, and drainage systems.
- **Environmental Enhancements:** Plantation of green vegetation, including beneficial and medicinal shrubs and trees.
- **Recreational Facilities:** Creation of a cricket ground and boundary fencing for public use.

The rejuvenation efforts included cleaning the water body, strengthening the side walls with stones, and installing seating benches. These improvements have significantly boosted the local agricultural productivity and community well-being.

### 3. Hillnet Distribution to Prevent Vector-Borne Diseases

**Locations:** Alipurduar (West Bengal), Patna (Bihar), Nalanda (Bihar), Balasore (Odisha)

**Total Distributed:** 50,000+ Mosquito Nets

Public health initiative carried out by the Socio Economic Research Institute (SERI) aimed at reducing the spread of vector-borne diseases, specifically malaria and dengue, in certain high-risk areas.

#### Key Points Explained:

##### 1. Initiative Overview:

- SERI launched a major campaign to distribute over 50,000 "Hillnets," which are special types of mosquito nets, to various communities.

- The regions chosen for this distribution were Alipurduar in West Bengal, Patna and Nalanda in Bihar, and Balasore in Odisha. These areas were identified as being at high risk for diseases like malaria and dengue.

## 2. Purpose of Hillnets:

- Hillnets are designed to provide strong protection against mosquito bites, which are the primary means of transmission for diseases like malaria and dengue. The nets are an important tool in preventing these diseases.

## 3. Target Population:

- The campaign focused on rural and tribal populations in these regions. These groups are considered to be at higher risk because they often have limited access to healthcare services, making them more vulnerable to the effects of these diseases.

## 4. Health Impact:

- By distributing these mosquito nets, SERI's goal was to significantly lower the number of malaria and dengue cases in the targeted areas. This would lead to better overall health and well-being for the affected communities.

## 4. Vitamin A Capsule Distribution in Jahangirpuri, Delhi

**Date: December 10, 2023**

SERI conducted a significant health initiative in the slum areas of Jahangirpuri, Delhi, distributing Vitamin A capsules to 1500 individuals to combat nutritional deficiencies. This effort aimed to enhance health outcomes, particularly for children, by addressing critical nutrient gaps.

### **Key Activities:**

- **Distribution:** 1500 Vitamin A capsules
- **Target Audience:** Residents of Jahangirpuri, particularly children
- **Health Benefits:** Improved vision, immune function, and overall growth

SERI also focused on health education, engaging with recipients to discuss the importance of Vitamin A and ways to incorporate it into daily diets. This educational component was vital in ensuring the sustained impact of the initiative.

## 5. Safe Drinking Water in Rural Odisha

**Date: October 21, 2023**

With support from our international partner SEVA CHILD, SERI facilitated the installation of submersible bore wells in various villages of Nabarangpur district, Odisha. This project provided access to safe drinking water for backward, underprivileged, and marginalized populations.

## Key Activities:

- **Infrastructure Development:** Digging submersible bore wells
- **Target Areas:** Backward and marginalized villages in Nabarangpur district
- **Health Impact:** Improved water quality, reduced disease incidence, and enhanced hygiene practices

Access to safe drinking water has had a profound impact on the health and well-being of these rural communities, aligning with the UN's recognition of water and sanitation as fundamental human rights

## 6. Free Health Care and Awareness Programme through Free Distribution of Personal Hygiene Kits and Sanitary Napkins

**Date:** March 8, 2023

**Location:** Nalanda, Bihar

**Target Group:** Women and adolescent girls

**Beneficiaries:** 1,200 Women and Girls

On International Women's Day, March 8, 2023, SERI organized a comprehensive health care and awareness event titled *Free Health Care and Awareness Programme through Free Distribution of Personal Hygiene Kits and Sanitary Napkins* in Nalanda, Bihar. The program was designed to address the critical issue of menstrual hygiene management (MHM) in rural areas, where access to sanitary products is often limited due to economic constraints and social stigma.

The event commenced with a series of educational sessions that focused on the importance of menstrual hygiene, breaking taboos associated with menstruation, and promoting health and well-being among women and girls. Expert health professionals conducted these sessions, providing accurate information and answering questions from the participants.

Following the awareness sessions, SERI distributed personal hygiene kits, which included sanitary napkins, soap, hand sanitizers, and other essential hygiene products, to approximately 1,200 women and girls. This initiative was not only about providing products but also about empowering women with knowledge and confidence to manage their menstrual health with dignity.

The event received an overwhelmingly positive response from the community, with many participants expressing their gratitude for the resources and information provided. SERI plans to replicate and expand this initiative in other regions to continue addressing menstrual hygiene challenges and promoting women's health.

## 7. Street Light Installation in Village Areas of Balasore

**Date:** May 2023

**Location:** Village Areas of Balasore, Odisha

**Target Group:** Rural communities

**Installations:** 250+ Street Lights

In May 2023, SERI undertook a significant infrastructure project aimed at enhancing the safety and quality of life in rural areas of Balasore, Odisha. The installation of over 250 street lights across various villages was a crucial step towards creating a safer and more secure environment for the residents.

The lack of adequate street lighting in rural areas often leads to increased risks of accidents, crimes, and other safety concerns, particularly after dark. Recognizing this need, SERI coordinated with local authorities and community leaders to identify key areas where street lighting would have the most impact.

The installation process was carried out with precision, ensuring that the lights were strategically placed to cover maximum areas, including roads, public spaces, and near schools and health centers. The street lights installed are energy-efficient, utilizing LED technology to reduce energy consumption and ensure long-term sustainability.

The impact of this project has been profound. Residents have reported a marked reduction in night-time accidents and a greater sense of security when moving around their villages after dark. This initiative aligns with SERI's commitment to improving rural infrastructure and enhancing the overall living conditions in underserved areas.

## **8. Installation of Smart Classes in Government Schools of Anand District**

**Date:** July 2023

**Location:** Anand District, Gujarat

**Target Group:** Students from Scheduled Tribes (ST) and Scheduled Castes (SC)

**Beneficiaries:** Economically Weaker Section Students

In July 2023, SERI made a significant investment in the future of education by installing smart classes in government schools across Anand district, Gujarat. This initiative was specifically targeted towards schools with a high population of students from Scheduled Tribes (ST) and Scheduled Castes (SC), many of whom come from economically weaker sections.

The smart classes are equipped with modern educational technology, including interactive whiteboards, projectors, and access to digital learning resources. These tools are designed to enhance the learning experience, making education more engaging and accessible for students who have traditionally faced barriers to quality education.

The introduction of smart classes represents a transformative shift in the way education is delivered in these schools. Teachers have been trained to effectively use the new technology, integrating it into their lesson plans to create dynamic and interactive learning environments. Students, who previously had limited access to digital resources, are now able to explore a wealth of information and learning materials that were previously beyond their reach.

The impact of this initiative has been immediate and significant. Students have shown increased enthusiasm for learning, and teachers have reported improvements in academic performance and engagement. By bridging the digital divide, SERI is helping to level the playing field for students from marginalized communities, giving them the tools and opportunities they need to succeed in today's increasingly digital world.

## 9. Installation of Hand Pumps in Patliputra Village Area

**Date:** March 2024

**Location:** Patliputra, Bihar

**Target Group:** Rural households

**Installations:** 30 Hand Pumps

Access to safe and clean drinking water is a fundamental necessity, and in August 2023, SERI took a significant step towards ensuring this for the residents of Patliputra village in Bihar. The installation of 30 hand pumps was

carried out to address the chronic water shortages and the challenges faced by the community in accessing potable water.

Prior to this intervention, many households in Patliputra relied on distant water sources, which were not only inconvenient but also posed risks of contamination. Women and children often had to travel long distances to fetch water, which was both time-consuming and physically demanding.

SERI's intervention focused on installing hand pumps in strategic locations throughout the village, ensuring that every household had easy access to clean and safe drinking water. The hand pumps were installed using high-quality materials to ensure durability and longevity. Regular maintenance protocols were also established, with local community members being trained to handle basic repairs and upkeep.

The installation of these hand pumps has brought about a dramatic improvement in the quality of life for the residents of Patliputra. The availability of clean water has reduced the incidence of waterborne diseases, lessened the daily burden on women and children, and contributed to better overall health and well-being in the community. This initiative is a testament to SERI's commitment to addressing essential needs and improving living conditions in rural areas.

## **10. Hydraulic and Pneumatic Lab Setup in Government Polytechnic College, Singrauli**

**Date:** September 2023

**Location:** Government Polytechnic College, Singrauli, Madhya Pradesh

**Target Group:** Polytechnic Mechanical Students

**Beneficiaries:** 200+ Students

In a significant step towards promoting sustainable livelihood opportunities and enhancing vocational education, the Socio Economic Research Institute (SERI) established a state-of-the-art Skill Development Technical Lab at Government Polytechnic College, Singrauli, Madhya Pradesh. This initiative received an NOC on October 2, 2023, and aims to provide reskilling and upskilling opportunities to marginalized youth, focusing on creating sustainable employment pathways.

### Key Features:

- **Facilities:** The lab is equipped with one set of Pneumatic Trainer Kit and one set of Hydraulic Trainer Kit, along with advanced hydraulic and pneumatic systems, including pumps, valves, actuators, and control systems.
- **Target Audience:** Educated but unemployed young individuals from marginalized sections and polytechnic mechanical students.
- **Beneficiaries:** Over 200 students from the Polytechnic Mechanical department.
- **Objective:** To enhance technical skills, bridge the gap between academic learning and industry requirements, and provide sustainable employment opportunities.

The lab also includes simulation software and training modules that help students understand the theoretical concepts behind hydraulic and pneumatic technologies. This hands-on training and practical experience have already positively impacted the students, increasing their confidence and technical proficiency.

This initiative is part of SERI's broader goal to promote economic independence and improve the socio-economic conditions of the youth in Singrauli, contributing to the overall development of the region.

The lab is also expected to attract more students to the polytechnic college, as it offers a unique opportunity for hands-on learning that is not available in many other institutions. This project underscores SERI's commitment to fostering technical education and preparing the next generation of skilled professionals in India.

## 11. Distribution of Ration Kits to Marginalized Communities in Cuddalore District

**Date:** November 2023

**Location:** Cuddalore District, Tamil Nadu

**Target Group:** Marginalized and vulnerable families

**Beneficiaries:** 200+ Families

In November 2023, under the provisions of the Foreign Contribution Regulation Act (FCRA), SERI conducted a large-scale distribution of ration kits to marginalized and vulnerable families in Cuddalore district, Tamil Nadu. This initiative was part of our ongoing efforts to provide essential support to communities facing economic hardship and food insecurity.

The ration kits distributed included essential food items such as rice, lentils, cooking oil, sugar, salt, and other staples, sufficient to meet the nutritional needs of a family for a month. Each kit was carefully curated to ensure that it provided balanced nutrition, taking into consideration the dietary needs of the recipients.

The distribution process was meticulously planned and executed, with priority given to the most vulnerable families, including those headed by women, elderly individuals, and persons with disabilities. Local volunteers and community leaders were involved in the identification of beneficiaries and the distribution process, ensuring transparency and fairness.

The impact of this initiative has been profound, providing much-needed relief to families struggling to meet their daily needs. The distribution of ration kits has not only helped to alleviate hunger but has also contributed to the overall well-being and resilience of these communities. SERI is committed to continuing such interventions to support those most in need and to promote food security and social welfare.

## **Impact on Communities**

### **1. Sansad Khel Mahakumbh 2024**

The Sansad Khel Mahakumbh has fostered a sense of unity and pride among participants and spectators. It has promoted physical fitness, sportsmanship, and cultural integration, significantly impacting the community.

### **2. Village Pond Rejuvenation in Vasad**

The rejuvenation of the Vasad village pond has enhanced agricultural productivity, food security, and provided a recreational space for the community, benefiting the socio-economic fabric of the village.

### **3. LLIN Mosquito Net Distribution**

The distribution of LLINs has reduced the incidence of vector-borne diseases, improving health outcomes and quality of life for the tribal populations in Balasore.

### **4. Vitamin A Capsule Distribution**

The Vitamin A distribution initiative has addressed critical nutritional deficiencies, particularly in children, enhancing their overall health and development in Jahangirpuri.

### **5. Safe Drinking Water in Rural Odisha**

Access to safe drinking water has improved hygiene practices, reduced disease incidence, and enhanced the overall well-being of the rural communities in Nabarangpur district.

### **6. Skill Development Technical Lab**

The establishment of the technical lab in Singrauli has opened new avenues for skill development, providing youth with opportunities for sustainable employment and economic independence.

## **Future Plans and Goals**

SERI is committed to expanding its reach and impact through the following initiatives:

### **1. Scaling Up Sansad Khel Mahakumbh:**

- Include more districts and diverse sporting events.

### **2. Water Conservation Projects:**

- Implementing similar projects in more villages across India.

### **3. Health Initiatives:**

- Expanding to address other critical deficiencies and health disparities.

### **4. Skill Development Programs:**

- Introducing more technical disciplines and advanced training modules.

### **5. Strengthening Partnerships:**

- Collaborating with local and international organizations to amplify the impact of our projects.

### **6. Digital Education Expansion:**

- **Virtual Learning Platforms:** Develop and expand online educational platforms to provide quality education to remote and underserved areas.
- **Tech-enabled Classrooms:** Introduce more smart classrooms equipped with digital tools to enhance learning experiences in government schools.

#### **7. Sustainable Livelihood Programs:**

- **Agriculture and Allied Activities:** Promote sustainable agricultural practices, organic farming, and allied activities like dairy farming and beekeeping to enhance rural livelihoods.
- **Entrepreneurship Development:** Create entrepreneurship programs that provide training, mentorship, and financial support to budding entrepreneurs in rural and urban areas.

#### **8. Women Empowerment Initiatives:**

- **Vocational Training for Women:** Expand vocational training centers focused on skill development for women, enabling them to become financially independent.
- **Women Health and Hygiene Awareness:** Launch health and hygiene awareness campaigns specifically for women, including menstrual health and reproductive rights.

#### **9. Renewable Energy Projects:**

- **Solar Energy for Rural Electrification:** Implement solar energy projects in off-grid and rural areas to provide clean and reliable electricity.
- **Sustainable Energy Education:** Initiate programs to educate communities about the benefits and usage of renewable energy sources.

#### **10. Infrastructure Development:**

- **Rural Road Development:** Invest in infrastructure projects that improve connectivity in rural areas, such as building roads and bridges.
- **Sanitation Facilities:** Implement projects to build sanitation facilities in underserved areas, ensuring access to clean water and proper waste management.

#### **11. Youth Engagement and Leadership Programs:**

- **Leadership Training for Youth:** Develop programs that train young people in leadership, advocacy, and community development.
- **Youth Employment Initiatives:** Create job placement programs and apprenticeships that link youth with employment opportunities.

#### **12. Disaster Preparedness and Response:**

- **Community-Based Disaster Management:** Develop community-based disaster preparedness programs that train residents on how to respond to natural disasters like floods and earthquakes.
- **Emergency Relief Services:** Establish rapid response teams that can provide immediate assistance during disasters, including food, shelter, and medical care.

#### **13. Education for Special Needs:**

- **Inclusive Education Programs:** Introduce education initiatives focused on children with special needs, providing specialized learning materials and trained educators.

- **Awareness Campaigns:** Conduct awareness campaigns to promote the inclusion of differently-abled individuals in mainstream education and employment.

#### 14. Research and Advocacy:

- **Policy Research and Advocacy:** Conduct research on pressing social issues and advocate for policy changes that benefit marginalized communities.
- **Community Feedback Mechanisms:** Set up systems to gather feedback from the communities you serve to continuously improve and adapt your programs.

## MEDIA COVERAGE

### सांसद ने किया स्वास्थ्य शिविर का उद्घाटन

रेलटेल के तत्वावधान में तीन दिवसीय चिकित्सा जांच शिविर का किया गया आयोजन

बिहारशरीफ। बिहारशरीफ के विर आयोजित किया गया था, जिसका शुभारंभ नालंदा सांसद से तीन दिवसीय निःशुल्क स्वास्थ्य शिविर का आयोजन किया गया। भारत कौशलेंद्र कुमार ने फीता काटकर किया। इस शिविर के जरिये लगभग मच्छरदानी भी वितरित किया जायेगा। इस अवसर पर अपने संबोधन में सांसद कौशलेंद्र कुमार ने कहा कि जिस तरह से हमारी प्रकृति असंतुलित हो गयी है। अनेकों अनेक बीमारियां पांव पसारने लगी हैं। आम लोगों को जागरूक होना होगा। इस कार्यक्रम का आयोजन जागरूक करना और बचाव के बारे में बताना है। आने वाले दिनों में इस तरह का आयोजन हर प्रखंडों में किया जायेगा ताकि अधिक से अधिक लोगों को इसका लाभ मिले। आगत अतिथियों का स्वागत वार्ड पार्श्व प्रतिनिधि जयंत शर्मा ने किया जबकि कार्यक्रम में शशिकांत कुमार टोनी, अमित कुमार रिक्का, अनंत शर्मा, नीतीश कुमार, मूनचुन कुमार, विक्रम कुमार, अनुज पांडे, अविनाश कुमार, राज कुमार, गोपाल कुमार आदि लोग मौजूद रहे। इस अवसर पर संस्था 'सेरी' के पदाधिकारी रघुवंश सिंह, शुभम सिंह, विनय कुमार यादव आदि लोग मौजूद रहे।

सरकार के इस उपक्रम के सीएसआर पहल के तहत सोशियो इकोनॉमिक रिसर्च इंस्टीट्यूट संस्था और ई. राक. श. कुमार के तत्वावधान में यह शि. दो हजार परिवारों को स्वास्थ्य परीक्षण कर मुफ्त में दवा दी जायेगी। इसके साथ ही डेंगू, मलेरिया जैसे मच्छर जनित रोगों पर लगाम लगाने के लिए

### सांसद कौशलेंद्र कुमार ने किया स्वास्थ्य शिविर का उद्घाटन व कीटनाशक मच्छरदानी का वितरण

नवबिहार दूत संवाददाता

बिहार शरीफ जिला नालंदा बिहार : आज बिहार शरीफ प्रखंड के मधड़ा वार्ड नंबर 48 में रेल टेल (भारत सरकार का उपक्रम) के सी एस आर पहल के तहत सोशियो इकोनॉमिक रिसर्च इंस्टीट्यूट संस्था (सेरी) और इंजीनियर राजेश कुमार के तत्वावधान में तीन दिवसीय निःशुल्क स्वास्थ्य शिविर कार्यक्रम का आयोजन किया गया इसका उद्घाटन नालंदा के सांसद कौशलेंद्र कुमार ने फीता काटकर किया। सांसद कुमार ने बताया कि इस संस्था का बिहार शरीफ में तीन दिवसीय शिविर लगवाया गया है जिसमें लगभग 2000 परिवारों को स्वास्थ्य परीक्षण कर दवा संग डेंगू, मलेरिया से रोकथाम हेतु मच्छरदानी वितरित किया जाएगा। सांसद कौशलेंद्र कुमार ने कहा कि जिस तरह से हमारी हमारी प्रकृति असंतुलित हो गई है अनेकों अनेक बीमारियां पांव पसार ही है आम जनों को जागरूक करके इसका बचाव करना है इसी के उद्देश्य इस तरह का आयोजन किया गया है आने वाले दिनों में इस तरह का हर प्रखंड में आयोजन किया जाएगा एवं लोगों को इसका लाभ दिया जाएगा। आगत अतिथियों का स्वागत मधड़ा वार्ड 48 से पार्श्व प्रतिनिधि जयंत शर्मा ने किया। इस अवसर पर डॉक्टर शशिकांत कुमार टोनी अमित कुमार उर्फ रिकी अनंत शर्मा, अविनाश कुमार, नीतीश कुमार, मूनचुन कुमार, विक्रम कुमार, अनुज पांडे, राजकुमार गोपाल कुमार आदि ने किया। सभी लोगों ने संस्था सेरी के पदाधिकारी रघुवंश सिंह, शुभम सिंह, ई विनय कुमार यादव के प्रति आभार प्रकट किया।

## तीन दिवसीय निःशुल्क स्वास्थ्य शिविर का उद्घाटन सांसद कौशल कुमार ने किया

**बिहारशरीफ, नई सोच एक्सप्रेस।** बुधवार को बिहारशरीफ नगर निगम क्षेत्र मघड़ा वार्ड नंबर 48 में रेल टेल (भारत सरकार का उपकर्म) के सी एस आर पहल के तहत सोशियो इकोनामिक रिसर्च इंस्टिट्यूट संस्था (सेरी) और इंजीनियर राजेश कुमार के तत्वाधान में तीन दिवसीय निःशुल्क स्वास्थ्य कार्यक्रम का उद्घाटन नालंदा के सांसद कौशलेंद्र कुमार ने फीता काटकर किया। सांसद कुमार ने बताया कि इस संस्था का बिहारशरीफ में तीन दिवसीय शिविर लगाया गया है, जिसमें लगभग 2000 परिवारों को स्वास्थ्य परीक्षण कर दवा संग डेगू, मलेरिया से रोकथाम हेतु मच्छरदानी वितरित किया जाएगा। सांसद कौशलेंद्र कुमार ने कहा कि जिस तरह से हमारी हमारी प्रकृति असंतुलित हो गई है अनेकों अनेक बीमारियां पांव पसार रही है, आम जनो को जागरूक करके इसका बचाव करना है, इसी उद्देश्य के तहत आयोजन किया गया है। आने वाले दिनों में इस तरह का हर प्रखंड में आयोजन किया जाएगा एवं लोगों को इसका लाभ दिया जाएगा। आगत अतिथियों का स्वागत मघड़ा वार्ड 48 से पार्षद प्रतिनिधि जयंत शर्मा ने किया। इस अवसर पर डॉक्टर शशिकांत कुमार टोनी, अमित कुमार उर्फ रिकी, अनंत शर्मा, अविनाश कुमार, नीतीश कुमार, मुनचुन कुमार, विक्रु कुमार, अनूज पांडे, राजकुमार गोपाल कुमार आदि ने किया। सभी लोगों ने संस्था के पदाधिकारी रघुवंश सिंह, शुभम सिंह, ई विनय कुमार यादव के प्रति आभार प्रकट किया। ?

## सांसद ने किया कीटनाशक मच्छरदानी का वितरण

**बिहारशरीफ (एसएनबी)।** बिहारशरीफ प्रखंड के मघड़ा वार्ड नंबर 48 में आज रेल टेल (भारत सरकार का उपकर्म) के सीएसआर पहल के तहत सोशियो इकोनामिक रिसर्च इंस्टिट्यूट संस्था (सेरी) और इंजीनियर राजेश कुमार के तत्वाधान में तीन दिवसीय निःशुल्क स्वास्थ्य शिविर कार्यक्रम का आयोजन किया गया। इसका उद्घाटन सांसद कौशलेंद्र कुमार ने

उद्घाटन करते सांसद व अन्य।

फीता काट कर किया। श्री कुमार ने बताया कि इस संस्था का बिहारशरीफ में तीन दिवसीय शिविर लगाया गया है। जिसमें लगभग 2000 परिवारों को स्वास्थ्य परीक्षण कर दवा संग डेगू, मलेरिया से रोकथाम के लिए

मच्छरदानी वितरित किया जाएगा। सांसद कौशलेंद्र कुमार ने कहा कि जिस तरह से हमारी प्र.ति असंतुलित हो गई है अनेकों अनेक बीमारियां पांव पसार ही है। आमजनों को जागरूक करके इसका बचाव करना है इसी के उद्देश्य इस तरह का आयोजन किया गया है। आने वाले दिनों में इस तरह का हर प्रखंड में आयोजन किया जाएगा एवं लोगों को इसका लाभ दिया जाएगा। आगत अतिथियों का स्वागत मघड़ा वार्ड 48 से पार्षद प्रतिनिधि जयंत शर्मा ने किया। इस अवसर पर डॉ. शशिकांत कुमार, टोनी अमित कुमार उर्फ रिकी अनंत शर्मा, अविनाश कुमार, नीतीश कुमार, मुनचुन कुमार, विक्रु कुमार, अनूज पांडे, राजकुमार गोपाल कुमार आदि ने किया। सभी लोगों ने संस्था सेरी के पदाधिकारी रघुवंश सिंह, शुभम सिंह, ई विनय कुमार यादव के प्रति आभार प्रकट किया।

## महिला दिवस पर सेनेटरी पैड का किया गया वितरण

### राष्ट्रीय खबर

**हिलसा :** सांसद कौशलेंद्र कुमार के सौजन्य से सोशियो इकोनामिक रिसर्च इंस्टिट्यूट संस्था और इंजीनियर राजेश कुमार के माध्यम से जागरूकता अभियान चलाया गया। तथा, छात्राओं व महिलाओं के बीच निःशुल्क सेनेटरी पैड वितरण किया गया। इस दौरान लगभग 4000 माताओं बहनों को सेनेटरी पैड का

लाभ मिला। सेनेटरी पैड वितरण करने में मुख्य पार्षद धनंजय कुमार व नवीन कुमार सहयोगी रहे। कार्यक्रम भारत सरकार के उपक्रम राइट्स लिमिटेड के सीएसआर पहल पर सेरी संस्था द्वारा आयोजित किया गया। सभी लाभार्थी लोगों ने संस्था सेरी के पदाधिकारी रघुवंश सिंह, शुभम सिंह, ई विनय कुमार यादव के प्रति आभार प्रकट किया।
